

Brand book

The logo, the dot, colour, type and voice for Mercury Agent, the sales agent that runs on your own machine.

A messenger that never sleeps, and still waits for your yes.

Mercury was the messenger of the gods. It is also the smallest, fastest planet, and the one that works closest to the sun. A few times a century it crosses the sun's face: a dark dot moving along a straight line. That crossing, the transit, is the mark.

What it does

Every 15 minutes Mercury Agent wakes, finds prospects, writes email and reads replies. Then it stops and waits. Nothing goes out until a person says yes.

What the mark says

A body leaving a disc, caught half out. The work is done and ready to go, and it is still waiting for your yes.

The one line

Mercury proposes; you confirm.

Proposal ready. Waiting for your yes.

It should feel

Tireless

Calm

Accountable

Precise

Warm

Round forms, one steady axis, no sharp tricks, a soft violet.

It should never feel

Hype or growth hack

Robotic sci-fi AI

Cold corporate

No rockets, sparkles, paper planes, envelopes, robot faces, winged helmets or ringed planets.

The transit

A dot crossing the edge of a disc along the horizontal.

The disc

The work, and the sun the planet crosses. Solid, round and steady, so the mark feels calm at any size.

The dot at the limb

Mercury itself, the agent. It sits half out at three o'clock, on the line the eye reads along, pointing into the name.

The gap

The pause before sending. A clean ring of space keeps the dot apart from the disc: the work is ready, and nothing leaves until you say yes.

Five numbers, one triangle

Everything is built from one grid unit. The gap, the dot, the bite, the travel and the disc are 1, 2, 3, 4 and 5 units.

Part	Units	On the 256 canvas
Gap g	$1u$	19.64
Dot radius r	$2u$	39.27
Bite radius $B = r + g$	$3u$	58.91
Disc centre to dot centre d	$4u$	78.55
Disc radius R	$5u$	98.18

3, 4, 5. Because $d^2 + B^2 = R^2$, the bite meets the rim exactly above and below the dot's centre. Both horns are clean 53° points.

Optical centre. The disc carries the weight, so the mark sits 4 units right of its box centre (margins 24 left, 16 right).

One path. Six anchors, all arcs, mirror-symmetric about the horizontal. Never redraw it; use the master files.

The dot is the agent

On its own the dot means Mercury is here. Moving, it shows the heartbeat: wake, act, wait for your yes, send.

Asleep
Closed disc

0.00 s

Wake
A dot appears inside

0.29 s

Act
It crosses the rim

0.45 s

Ready
Waits for your yes

1.39–2.11 s

Sent
Goes out, the disc heals

2.11–2.40 s

Motion		
Phase	Time	cubic-bezier
Wake	0–0.29 s	.33,1, .68,1
Act	0.29–1.39 s	.16,1, .3,1
Ready	1.39–2.11 s	hold
Sent	2.11–2.40 s	.5,0, .75,0

One loop is 2.4 s. Reduced motion stops in the logo pose.

States in the dashboard		
Agent	Mark	Status stays a badge
Quiet hours or stopped	Closed disc, no dot	 Asleep until 7:00
Running a cycle	The heartbeat loop	 Running
Proposal ready	Still, in the logo pose	 Needs you

Presence, not status

**Mercury is running**
Next heartbeat 10:45 Running

The dot sits next to the agent's name. Status is still a Phosphor icon plus a word. The dot is always accent violet, never green, amber or red.

Four ways to sign

Use the horizontal lockup first. Use the others when the space asks for them. Never rebuild them by hand.

Horizontal. The primary logo: headers, README, slides.

Stacked. Square spaces, social cards.

Symbol. Icons, avatars, small spaces.

Mercury Agent

Wordmark. Only when the symbol is already near.

Endorsement. Geist 500, text-2, left-aligned with the M.

Give it one dot of room

The unit x is the dot's radius. Keep 2x, one dot, clear on every side. It scales with the logo. The gap between symbol and name is one dot too.

The shaded field is the clear space. Each lavender circle is one dot, 2x across.

Version	Screen	Print
Horizontal lockup	160 px wide	35 mm
Stacked lockup	120 px wide	25 mm
Wordmark	120 px wide	25 mm
Symbol, master	32 px	8 mm
Symbol, small cut	16 to 24 px	5 mm

At minimum size, actual pixels

In the sidebar and the browser tab the tile is the clear space.

A heavier cut for 24 px and below

The small cut fills its square, lands the disc edge on whole pixels at 16 px and opens the gap. Switch to it at 24 px and below; use the master from 32 px up.

24 px

32 px

16 px

24 px

32 px

Approved logo and background pairs

One colour at a time. The reversed cut is used for every white or light-on-dark version, so it doesn't look heavier than the black one.

Ink #211C35 on white. The default.

White on ink, reversed cut.

Accent #6D53D3 on lavender #ECE6FD.

White on the tile gradient, reversed cut.

White on dark #14111E, reversed cut.

Dark-mode accent #B7A4F7 on #14111E.

The tile

The violet gradient tile from the dashboard, now holding the mark. Corner radius 29 % of the size.
Below 32 px use the tile with the small cut.

Browser tab

favicon.svg follows the browser theme; favicon.ico is the small tile.

Above at 1x, below at 1.5x.

Dashboard sidebar, 30 px tile

The .brand block from app.css with the new mark, light and dark, shown at 1x.

Above at 1x, below at 1.8x.

One violet, warm neutrals

The accent is the only colour in the mark. CMYK values are a straight conversion, so proof them before print.

Accent
HEX #6D53D3
RGB 109 83 211
CMYK 48 61 0 17

Logo on light, primary actions, selection

Accent deep
HEX #5639BD
RGB 86 57 189
CMYK 54 70 0 26

Accent as text, hover

Ink
HEX #211C35
RGB 33 28 53
CMYK 38 47 0 79

Logo and accent in dark mode

Pair		Contrast	AA text, 4.5 : 1	Large text and logo, 3 : 1
Aa	Accent on white	5.49 : 1	✔ Pass	✔ Pass
Aa	Accent deep on white	7.73 : 1	✔ Pass	✔ Pass
Aa	Ink on lavender mist	15.16 : 1	✔ Pass	✔ Pass
Aa	White on accent (buttons)	5.49 : 1	✔ Pass	✔ Pass
Aa	Accent on lavender	4.52 : 1	✔ Pass	✔ Pass
Aa	Accent on dark	8.56 : 1	✔ Pass	✔ Pass
Aa	White on tile, middle	3.01 : 1	✘ Fail	✔ Pass
Aa	White on tile, lightest corner	1.82 : 1	✘ Fail	✘ Fail

White on the lightest corner of the tile is only for the mark, which is large and solid. Never set small text on the tile.

The dashboard tokens

Light is the default; dark is the same design in deep aubergine. Status hues belong to meaning. They live only in the icon glyph, and never in the logo, the dot or the animation.

Status, reserved for meaning

Badge	Light glyph	Dark glyph	Meaning
 Sent	#2F9460	#8CCBA3	Good
 Needs you	#C98A1E	#E3BC74	Waiting
 Bounced	#A3343A	#EE9AA0	Bad
 Running	#2D5F8A	#93BDE6	Active
 Replied	#9B3570	#EBA1CB	Note

An icon plus a word. No tinted pills, no coloured dots, no coloured chips.

Geist, and Geist Mono for every figure

One family in three weights, 400, 500 and 600, plus its monospaced cut so numbers line up. No serif anywhere.

Scale, from app.css

28 / 600	412 companies	KPI figures, page display
24 / 600	Today	Section titles
18 / 600	12 emails waiting for your approval	Subjects, drawer titles
15 / 600	Needs you	Panel titles
14 / 400	Mercury drafted a reply with a 15-minute call link.	Body
13 / 400	Decisions only you can make, most blocking first.	Secondary text, tables
12 / 500	Waiting for your yes	Badges, labels, footnotes

Aa
400 Regular. Body text.

Aa
500 Medium. Labels, buttons.

Aa
600 Semibold. Titles, the wordmark.

Geist Mono, tabular

1,906 10:41

412 · 380 · 214 · 36 · 7

Every figure is monospaced so a changing value doesn't shift the layout.

The wordmark

Mercury Agent

- Face Geist 600, one weight
- Tracking -20 (-2 %)
- Cap height 112 on the 256 lockup, the dot's centre on the cap midline
- Files Outlined. Never type it.

Plain, short, honest

Mercury writes like a careful colleague, not a marketer. Say what happened, what it cost and what is waiting on the person.

Say what is true

Counts, times and costs. Never invent a detail or round up a result.

Propose, then wait

Mercury suggests; the person decides. Make the yes easy and the default safe.

One point at a time

Short sentences. One idea per line, one question per email.

No AI voice

No hype words, no exclamation marks, no em-dashes, no all-caps
no emoji.

Read it out loud. If it sounds like AI wrote it, rewrite it.

Write this

✔ 12 emails waiting for your approval.

✔ Mercury drafted a reply. Check it before it goes out.

✔ Found 48 roofers in Denver. It cost \$0.02.

✔ Nothing is sent until you say yes.

✔ Quiet hours until 7:00.

Not this

✗ Supercharge your pipeline with AI-powered outreach!

✗ Your AI SDR is crushing it 24/7.

✗ Unlock limitless leads in seconds.

✗ Sit back and let the magic happen.

✗ Mercury is resting its circuits.

Banned in product copy and in Mercury's email: unlock, supercharge, elevate, seamless, leverage, game-changer.

In the product

The voice on the Today page: what is waiting, why, and one clear action.

🕒 Needs you

12 emails waiting for your approval

Opening emails to roofers in Denver and Boulder. Mercury sends them on a human-like schedule once you approve.

Review outbox

The mark in the dashboard

The new tile replaces the plain M in the sidebar, light and dark. Everything else on screen is unchanged.

Today, light.

Today, dark.

The sidebar at 1x: the 30 px tile with the reversed cut, "Mercury Agent" in Geist 600 and the tagline in text-3.

Where people meet it

README header, light

A sales agent that runs on your own machine. It finds prospects, writes cold email and handles replies. Nothing goes out until you say yes.

```
pip install -e .
mercury run
```

README header, dark

A sales agent that runs on your own machine. It finds prospects, writes cold email and handles replies. Nothing goes out until you say yes.

```
pip install -e .
mercury run
```

Social avatar

The full-bleed tile in a circle.

Terminal, mercury run

Half-block banner drawn from the small cut.

Mercury Agent

[Docs](#) [GitHub](#)

A messenger that never sleeps, and still waits for your yes.

Please don't

⊗ Don't rotate it. It turns into a person icon.

⊗ Don't mirror it. The dot leads into the name.

⊗ Don't stretch or squash it.

⊗ Don't use status hues. Green means sent.

⊗ Don't add shadows, glows or effects.

⊗ Don't place it on a busy picture.

⊗ Don't set the name in another font.

⊗ Don't move the dot. At 1:30 it reads as a badge.

⊗ Don't change the gap or the dot size.
